

CHIN AND JAW SHAPING (HANDS ON)

CME/CE INFORMATION

This activity is jointly provided by Global Education Group and Aesthetic Mentor.

This activity is supported by an educational grant from AbbVie.

This activity is supported by an educational, in-kind grant of neurotoxins, provided by AbbVie.

This activity is supported by an educational, in-kind grant of hyaluronic acid dermal fillers, provided by AbbVie.

Target Audience

This activity is designed for licensed aesthetic professionals who have taken the Introduction to Dermal Filler class and have beginner to intermediate experience in facial injectables and are seeking enhanced knowledge of safe technique for chin and/or jawline augmentation using hyaluronic acid (HA) dermal fillers.

Statement of Need/Program Overview

This comprehensive 4-hour educational activity includes both didactic and hands-on training for clinicians interested in offering chin and jawline injection procedures using HA dermal filler and cosmetic neurotoxin products to appropriate patients. The Chin & Jawline Shaping course is a more advanced course for injectors who want to increase their skills to include safe, effective facial contouring.

Learners will acquire in-depth knowledge of the anatomy and physiology of the lower face, as well as deepen their knowledge of the aging process. Upon completion of this course, participants are able to identify anatomical landmarks for the safe injection of dermal fillers, learn techniques to optimize safety for lower face injections with dermal fillers, manage adverse events, and practice basic techniques with a variety of HA fillers.

Educational Objectives

After completing this activity, the participant should be better able to:

- Identify patient characteristics that support or contraindicate use of HA dermal fillers.
- Describe the anatomy and physiology of the chin and jawline.
- Discuss how genetics and aging affect the anatomy and physiology of the chin and jawline.
- Identify chin and jawline areas for which sculpting with dermal fillers is appropriate.
- Identify which HA dermal fillers are appropriate and indicated for chin and jawline shaping.
- List the proper dosing regimens for chin and jawline shaping with appropriate HA dermal fillers and neurotoxins.
- List the proper injection techniques for chin and jawline shaping with appropriate HA dermal fillers and neurotoxins.
- Identify normal side effects versus complications.
- Explain how to manage adverse events associated with chin and jawline procedures.

Agenda

Didactic Lecture	1 hour
Hands on Training	3 hours

Physician Accreditation Statement

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Global Education Group (Global) and Aesthetic Mentor. Global is accredited by the ACCME to provide continuing medical education for physicians.

* This CME/CE activity complies with all requirements of the federal Physician Payment Sunshine Act. If a reportable event is associated with this activity, the accredited provider managing the program will provide the appropriate physician data to the Open Payments database.

Physician Credit Designation

Global Education Group designates this live activity for a maximum of 4.0 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Nursing Continuing Education

Global Education Group is accredited as a provider of nursing continuing professional development by the American Nurses Credentialing Center's Commission on Accreditation.

This educational activity for 4.0 contact hours including 0.0 pharmacotherapeutic contact hours is provided by Global Education Group. Nurses should claim only the credit commensurate with the extent of their participation in the activity.

Disclosure of Relevant Financial Relationships

Global Education Group (Global) adheres to the policies and guidelines, including the Standards for Integrity and Independence in Accredited CE, set forth to providers by the Accreditation Council for Continuing Medical Education (ACCME) and all other professional organizations, as applicable, stating those activities where

continuing education credits are awarded must be balanced, independent, objective, and scientifically rigorous. All persons in a position to control the content of an accredited continuing education program provided by Global are required to disclose all financial relationships with any ineligible company within the past 24 months to Global. All financial relationships reported are identified as relevant and mitigated by Global in accordance with the Standards for Integrity and Independence in Accredited CE in advance of delivery of the activity to learners. The content of this activity was vetted by Global to assure objectivity and that the activity is free of commercial bias.

Americans with Disabilities Act

♿ Event staff will be glad to assist you with any special needs (ie, physical, dietary, etc). Please contact Aesthetic Mentor prior to the live event at (857) 226-9492.

Global Contact Information

For information about the accreditation of this program, please contact Global at 303-395-1782 or cme@globaleducationgroup.com.
