

# INTRODUCTION TO CANNULAS (HANDS ON)

## CME/CE INFORMATION

This activity is jointly provided by Global Education Group (Global) and Aesthetic Mentor.

### **Target Audience**

This course is designed for medical professionals holding an active and unrestricted license having previously completed an introductory class in dermal fillers and 6 months of injecting experience.

### **Statement of Need/Program Overview**

To optimize outcomes with dermal fillers, healthcare professionals require training regarding injection of all dermal fillers. Of particular concern, the use of blunt tip microcannulas for injection of dermal fillers requires advanced injector skill.

This live activity provides foundational knowledge regarding the indications for the use of microcannulas for dermal filler injections including benefits, risks, indications and contraindications of microcannulas and provides a demonstration of injection techniques for microcannulas including hands-on training regarding dermal filler injections via cannulas, including knowledge about the anatomy and various techniques to facilitate expertise in providing these procedures.

### **Educational Objectives**

*After completing this activity, the participant should be better able to:*

- Examine the difference between injections with straight needles versus a cannula.
- Discuss indications for the use of cannulas
- Explain how to safely integrate the techniques into aesthetic treatment.
- Review facial anatomy and vasculature to increase patient safety and minimize treatment complications.
- Explore the properties of cannulas
- Examine the criteria to choose the most appropriate device based on the desired product and patient outcomes.
- Compare the benefits and risks of using a cannula
- Participate in hands-on practice of skills and techniques learned in a supported learning environment
